

PROFESSIONAL SUMMARY

Motivated Computer Science Engineering student with strong foundation in programming, cybersecurity, AI, and cloud computing. Certified in multiple technical domains with hands-on project experience. Skilled in problem-solving, analytical thinking, and teamwork. Seeking opportunities to apply technical knowledge, contribute to innovative solutions, and grow as a software and security professional.

KEY EXPERTISE

Problem Solving | Analytical Thinking | Communication Skills | Leadership | Teamwork | Time Management | Adaptability | Critical Thinking | Quick Learning | Technical Proficiency

EDUCATION

MIT Academy of Engineering, Pune

2024 - 2028

B.Tech. - Computer Engineering | CGPA: 9.10 / 10

The New Hghschool and Junior College , Ichalkaranji, Ichalkaranji

2024

12th | HSC | Percentage: 90 / 100

Manere Hightschool , Ichalkaranji, Ichalkaranji

2022

10th | SSC | Percentage: 95 / 100

AWARDS AND SCHOLARSHIPS

- Buddy For Study Scholarship
- ONGC Foundation Scholarship
- Federal Bank Hormis Memorial Foundation Scholarship

INTERNSHIPS

Wadhwani Foundation | Academics / Research

12 Oct, 2025 - 28 Dec, 2025

Employability Skills of Start-up

Key Skills:

Entrepreneurial Mindset, Business Planning, Market Research, Financial Basics, Problem Solving, Leadership, Innovation

Successfully completed the Wadhwani Virtual Internship focused on developing entrepreneurial and business skills. Gained practical exposure to business planning, market analysis, financial fundamentals, and problem-solving strategies. The program enhanced leadership qualities, innovation thinking, and decision-making abilities, preparing me to identify opportunities and build sustainable ventures in real-world scenarios.

Cisco Netcad academy | Cyber Security

11 Jun, 2025 - 11 Aug, 2025

AICTE

Key Skills:

Cyber Threat Analysis, Firewall & VPN Config, Vulnerability Assessment, Cryptography, Secure Network Design, Packet Tracer

Successfully completed the Cisco AICTE Virtual Internship Program 2025 in Cybersecurity (June–August 2025). Gained hands-on experience and practical knowledge through Cisco Networking Academy. Grateful to MITAOE, mentors, and Cisco for this valuable learning opportunity

Anudip Foundation | Education

01 Jun, 2025 - 03 Jul, 2025

Placement Training

Key Skills:

IT Fundamentals, Digital Literacy, MS Office, Communication Skills, Resume Writing, Interview Skills, Teamwork, Time Management

Here is a detailed description (within 6000 characters):

Successfully completed 43 hours of intensive training in IT and Career Readiness conducted by Anudip Foundation Skill and Career Development Centre, Pune, Maharashtra. This program was designed to enhance both technical knowledge and professional

competencies required to succeed in today's competitive job market.

The training covered fundamental IT concepts and digital literacy, enabling effective use of essential tools such as MS Word, Excel, and PowerPoint for documentation, data handling, presentations, and workplace communication. It strengthened understanding of basic computer operations, internet usage, email etiquette, and safe digital practices.

Along with technical skills, the program strongly emphasized career readiness and employability skills. Sessions focused on building effective communication abilities, including verbal and written communication, professional email drafting, and presentation skills. Special attention was given to resume writing, interview preparation, confidence building, and understanding workplace behavior and ethics.

The internship also enhanced soft skills such as teamwork, time management, problem-solving, adaptability, and professional conduct. Activities and practical exercises helped in developing critical thinking and collaborative working abilities, which are essential in real-world corporate environments.

PROJECTS

Cisco Packet Tracer

29 Jul, 2025 - 15 Aug, 2025

Mentor: Dr. Anuradha Pawar | Team Size: 3

Key Skills:

Network Configuration, Cisco Packet Tracer, VLAN Setup, Firewall Rules, IP Addressing, Network Security, Troubleshooting

Project Link: <https://drive.google.com/drive/folders/1htlZaOLQA8Lr7GgBc-3lZW1Q5s1q6nCJ?usp=sharing>

Developed a cybersecurity project using Cisco Packet Tracer to design and simulate a secure network infrastructure. Configured VLANs, IP addressing, routers, switches, and implemented basic firewall rules to enhance network security. Performed connectivity testing and troubleshooting to ensure secure communication between network segments. This project strengthened practical skills in network design and security implementation.

ACHIEVEMENTS

- Manthan Talent Search Examination (M.T.S.E.)
- S.S.C Fourth Rank at the Center Level
- Anchor

ASSESSMENTS / CERTIFICATIONS

Renewable Energy Technologies and Grid Integration

Key Skills:

Renewable Energy Systems, Solar & Wind Technologies, Grid Integration, Smart Grids, Energy Storage, Power Systems Basics

Successfully completed the course pathway on Renewable Energy Technologies and Grid Integration, covering 11 courses and 32 learning hours. Gained knowledge of solar and wind energy systems, energy storage solutions, smart grids, and power system fundamentals. Developed understanding of integrating renewable sources into modern electrical grids for sustainable and efficient energy management.

Google AI Essentials

Key Skills: AI Fundamentals, Prompt Engineering, Generative AI, Machine Learning Basics, AI Ethics, Productivity with AI Tools

Successfully completed Google AI Essentials through Coursera, gaining foundational knowledge in Artificial Intelligence and Generative AI. Learned prompt engineering, AI applications in productivity, responsible AI practices, and basic machine learning concepts. The course enhanced my ability to use AI tools effectively and apply AI-driven solutions in academic and professional tasks.

AWS Certificate

Key Skills: Cloud Computing Basics, AWS Core Services, EC2, S3, IAM, VPC, Cloud Security, Deployment Models

Successfully completed the AWS Essential Certificate program, gaining foundational knowledge of cloud computing and Amazon Web Services. Learned about core AWS services such as EC2, S3, IAM, and VPC, along with cloud security and deployment models. Developed understanding of scalable infrastructure, storage solutions, and secure cloud-based application deployment.

Python

Key Skills: Python Fundamentals, Data Types, Control Statements, Functions, Loops, Basic OOP, Problem Solving

Successfully completed the Certificate of Accomplishment in Python Basics. Gained strong foundation in Python programming, including data types, control structures, functions, loops, and basic object-oriented concepts. Developed problem-solving skills and the ability to write efficient, structured programs for real-world applications.

Kali Linux

Key Skills:

Kali Linux Basics, Linux Commands, Penetration Testing Tools, Network Scanning, Vulnerability Analysis, Ethical Hacking

Successfully completed Kali Linux Essentials, gaining practical knowledge of Linux fundamentals and cybersecurity tools. Learned to use penetration testing utilities, perform network scanning, and conduct basic vulnerability analysis. Developed hands-on skills in ethical hacking concepts and secure system assessment techniques.

Junior CyberSecurity Analyst

Key Skills:

Security Monitoring, SIEM Basics, Incident Response, Threat Detection, Log Analysis, Network Security, Risk Assessment

Earned the Junior Cybersecurity Analyst virtual certificate, demonstrating foundational knowledge in security monitoring, threat detection, and incident response. Gained understanding of SIEM tools, log analysis, risk assessment, and network security principles. This certification reflects my ability to support cybersecurity operations and identify potential security threats effectively.

Fundamentals of Deep Learning

Key Skills: Deep Learning Basics, Neural Networks, CNNs, Model Training, Data Preprocessing, GPU Computing, AI Applications

Earned the Fundamentals of Deep Learning certificate from NVIDIA, gaining foundational knowledge of neural networks and deep learning concepts. Learned about convolutional neural networks (CNNs), data preprocessing, model training, and GPU-accelerated computing. Developed practical understanding of building and optimizing AI models for real-world applications.

Wadhwani Certificate

Key Skills: Entrepreneurial Skills, Ideation, Business Modeling, Financial Planning, Startup Strategy, Innovation, Decision Making

Successfully completed the Ignite India Program by fulfilling all coursework and assessments. Gained key entrepreneurial skills in ideation, business modeling, and financial planning. The program strengthened innovation, strategic thinking, and decision-making abilities, inspiring the application of entrepreneurial skills to create meaningful and sustainable impact.

Claude 101

Key Skills: AI fundamentals Claude usage Prompting basics Writing assistance Research with AI Problem solving

This certification covers the fundamentals of using Claude as an AI assistant. It includes understanding its capabilities in writing, research, coding, and problem-solving, along with best practices for prompting and interacting effectively with AI tools. The course builds a strong foundation for leveraging AI in everyday tasks.

AI Fluency : Framework and Foundations

Key Skills: AI Fluency Delegation Description Discernment Diligence Ethical AI use

This certification focuses on the AI Fluency Framework, introducing the four core competencies: Delegation, Description, Discernment, and Diligence. It emphasizes ethical, efficient, and responsible AI usage, helping learners understand how to collaborate with AI while maintaining control, judgment, and accountability.

AI Fluency for students

Key Skills: AI-assisted learning Critical thinking decision making Job application optimization AI productivity

This certification highlights how to use AI as a learning partner and career support tool. It covers strategies for improving understanding, critical thinking, and productivity, as well as responsible use of AI in job applications, resume building, and professional communication.

AI Fluency for nonprofits

Key Skills:

AI in organizations Content creation with AI Data analysis with AI AI governance Transparency in AI use Workflow automation

This certification explores the practical application of AI in organizational and real-world contexts. It includes using AI for content creation, data analysis, and workflow improvement while maintaining transparency, accuracy, and alignment with organizational goals and values.

SEMINARS / TRAININGS / WORKSHOPS

Fundamentals Of Deep Learning Institute Name: MIT Academy of Engineering, Pune 11 Dec, 2025 - 15 Dec, 2025

Key Skills: Deep Learning Basics, Neural Networks, CNNs, Model Training, Data Preprocessing, GPU Computing, AI Applications

Earned the Fundamentals of Deep Learning certificate from NVIDIA, gaining foundational knowledge of neural networks and deep learning concepts. Learned about convolutional neural networks (CNNs), data preprocessing, model training, and GPU-accelerated computing. Developed practical understanding of building and optimizing AI models for real-world applications.

Generative AI 04 Dec, 2025 - 05 Dec, 2025

Institute Name: MIT Academy of Engineering, Pune

Key Skills: Generative AI, Prompt Engineering, Large Language Models, AI Tools, Content Generation, Responsible AI

Completed training in Generative AI, gaining knowledge of large language models, prompt engineering, and AI-powered content creation. Learned practical applications of generative tools for automation, productivity, and problem-solving while understanding responsible AI usage and ethical considerations.

Inspiring Talk on Science, Ethics & Purposeful Living by H. C. Verma at MIT Academy of Engineering 21 Aug, 2025 - 21 Aug, 2025

Institute Name: MIT Academy of Engineering, Pune

Key Skills: Scientific Thinking, Ethical Leadership, Environmental Responsibility, Mindful AI Use, Self Awareness, Critical Thinking

Attended an inspiring session by Padma Shri Dr. H. C. Verma at MIT Academy of Engineering, Alandi. The talk emphasized the importance of scientific thinking, ethical values, environmental responsibility, and mindful use of AI tools like ChatGPT. The session encouraged self-awareness, purpose-driven learning, and balancing knowledge with strong character for meaningful personal and professional growth.

Leveraging AI and Genomics in Advancing Precision and Personalized Medicine 22 Feb, 2025 - 24 Feb, 2025

Institute Name: MIT Academy of Engineering, Pune

Key Skills: AI in Healthcare, Genomics Basics, Precision Medicine, Data Analysis, Bioinformatics Overview, Ethical AI in Medicine

Attended the online workshop on Leveraging AI and Genomics in Advancing Precision and Personalized Medicine. Gained insights into the application of artificial intelligence in genomic data analysis and personalized treatment approaches. Learned about precision medicine concepts, bioinformatics fundamentals, and ethical considerations in AI-driven healthcare innovations.
